- Security and safety

ALONE

Supporting older people
to age at home

ALONE is a national organisation that supports older people to age at home.

Our services include Support & Befriending, Coordinated Support, Age-friendly Housing, and technology & community supports. Our volunteers and staff are dedicated to ensuring every older person has the supports they need to age at home.

What we do:

Our team work with statutory, community and voluntary services to coordinate the supports each older person needs.

We work in partnership with other organisations to deliver streamlined services and ensure the best use of limited resources.

How we work:

- A referral is made on our website, www.alone.ie, or by contacting the ALONE office.
- A member of our team carries out an assessment.
- A support plan is put in place to help the older person find a solution for their difficulties.
- We will keep in contact with the older person until it has been resolved.

All You Need To Do Is:

Contact us at: 0818 222 024

or email hello@alone.ie

or visit www.alone.ie
